IN THE CLAIMS

1.-12. (Cancelled)

13. (Previously Presented) The shower surround as recited in claim 19, wherein said multiple of horizontal shelf slots are segmented.

14. (Previously Presented) The shower surround as recited in claim 19, further comprising a shelf removable engaged with any of said multiple of horizontal shelf slots.

15. (Previously Presented) The shower surround as recited in claim 14, wherein interfaces between said slots and said removable shelves provide a "snap-in" interface

16. (Cancelled)

17. (Previously Presented) The shower surround as recited in claim 16, wherein said annular frame defines an opening there through that is generally parallel to said base portion.

18. (Previously Presented) The shower surround as recited in claim 19, wherein said horizontal shelf slots comprise blind openings that extend into said corner portion.

19. (Previously Presented) A shower surround comprising:
a base portion;
a first wall portion;
a second wall portion; and
a corner portion engaged with said base portion, said first wall portion and said second wall portion, said corner portion comprising a multiple of horizontal shelf slots arranged vertically along a length of said corner portion, wherein said horizontal shelf slots comprise at least partially arcuate openings in said corner portion.
